Killing Pablo Escobar

Life is what you make it. Nobody can ever tell how in the world a young middle-class and innocent boy became one of the most wanted and most notorious criminal in the world. Sometimes, circumstances can change an angel into a devil and vice versa. A person is the only one who can decide for his own life and of the future that he would love to have soon. Money is one of the things that can make a person change into someone that is very unlike of him. Pablo Escobar is one of those innocent people who became the most destructive person of the past due to some changes in his life that had a great influence on him. Who says that only those celebrities are the most influential and most famous persons on earth? Pablo Escobar is famous not because he is a celebrity, but because he was one of the most notorious and richest Colombian drug lord who has supplied over 80% of cocaine that were smuggled into the United States. Pablo Escobar was widely known in the world as the "King of Cocaine" and became a big name in the industry of black market when he became the wealthiest criminal that has ever lived in history; with an estimated net worth of about 30 billion US dollars way back in the early 1990s. Aside from that, he had an approximately 50 billion US dollars when his money that was buried in several parts of Colombia are included. This book tells the beginnings and the brutal rise as well as the fall of the world's most dangerous outlaw and Colombian King of Cocaine Pablo Escobar, whose injustice criminal empire and reign held a whole nation of over 30 million hostages. His criminal empire has brought a reign of complete chaos and terror that would only end with Pablo Escobar's death and this had happened after a 16-month manhunt for Escobar. At his height and peak of success in 1980s, Pablo Escobar...
owned planes and fleets of luxury boats, and 19 different residences and mansions in Medellin, each with its very own helipad. There are many attempts to capture him, but he just simply bought off the police, judges and politicians all throughout the country and he killed the others who did not cooperate with him. The Colombian government tried many times to capture him, but he always evaded them. But in 1988, around one thousand national police searched and raided one of his luxurious mansions and with pure luck, he was caught with his pants down, literally.

This handbook comprises essays by leading scholars and practitioners on the topic of U.S. counterterrorism and irregular warfare campaigns and operations around the globe. Terrorist groups have evolved substantially since 9/11, with the Islamic State often described as a pseudo-state, a terrorist group, and insurgency all at the same time. While researchers', analysts', and policymakers' understanding of terrorism has grown immensely over the past two decades, similar advancements in the understanding of counterterrorism lag. As such, this handbook explains why it is necessary to take a broader view of counterterrorism which can, and often does, include irregular warfare. The volume is divided into three thematic sections: Part I examines modern terrorism in the Islamic world and gives an overview of the major terrorist groups from the past three decades; Part II provides a wide variety of case studies of counterterrorism and irregular warfare operations, spanning from the 1980s to the irregular warfare campaign against the Islamic State in northern Syria in 2018; Part III examines the government instruments used to combat terrorism and wage irregular warfare, such as drones, Theater Special Operations Commands, and Theater Commands. The handbook fills a gap in the traditional counterterrorism literature by its inclusion of irregular warfare and by providing

Already a classic of war reporting and now reissued as a Grove Press paperback, Black Hawk Down is Mark Bowden’s brilliant account of the longest sustained firefight involving American troops since the Vietnam War. On October 3, 1993, about a hundred elite U.S. soldiers were dropped by helicopter into the teeming market in the heart of Mogadishu, Somalia. Their mission was to abduct two top lieutenants of a Somali warlord and return to base. It was supposed to take an hour. Instead, they found themselves pinned down through a long and terrible night fighting against thousands of heavily armed Somalis. The following morning, eighteen Americans were dead and more than seventy had been badly wounded. Drawing on interviews from both sides, army records, audiotapes, and videos (some of the material is still classified), Bowden’s minute-by-minute narrative is one of the most exciting accounts of modern combat ever written—a riveting story that captures the heroism, courage, and brutality of battle.

"In Black Paper, Teju Cole meditates on what it means to keep our humanity--and witness the humanity of others--in a time of darkness. "Darkness," Cole writes, "is not empty." Through art, politics, travel, and memoir, he returns us to the wisdom latent in shadows, and sets the darkness echoing. The opening essay sets the mood for the book, as Cole travels to southern
Italy and Sicily to view a series of Caravaggio paintings. He ponders the suffering that Caravaggio ("a murderer, a slaveholder, a terror, and a pest") both dealt out and experienced, and the disquieting echoes of that suffering in the abandoned boats of migrants arriving on nearby shores. This collection also gathers several of Cole's recent columns on photography for the New York Times Magazine and offers a suite of elegies to lost friends who show him--and us--ways of mourning in times of death"--

I've begged God for forgiveness, but I won't know till the day I die if He has truly forgiven me ... I've paid my dues to society by serving my long sentence, but perhaps I haven't earned His indulgence ... Oh my God, I've lived so many different lives! I survived Pablo Escobar Gaviria, El Patrón (The Boss), and it was the strength of his indomitable spirit that kept me going all these years; I don't quite know how or why. I still feel his presence every day of my existence. The Medellin cartel's crimes weigh as heavily on my shoulders today as they did yesterday. My youth, wasted in crime, became the sword that now hangs over my graying head. To the world, I'll always be known by my alias, Popeye, the fearsome hitman of the Medellin cartel, Pablo Escobar Gaviria's right-hand man ... How can I make you understand I'm a new man ... that twenty-three years behind bars in that hellhole have transformed the person I once was. Now the freedom I yearned for is vanishing in the murderous hands of my enemies. Perhaps fate has extended my life only to toy with me by preparing my own dying moments. I survived in captivity but I don't know if I'll be able to live in freedom ... A prisoner of my own mind, I'll try to fight to find some peace ... It's very cold ... now it's August 2014. I'm one step from freedom and I'm still breathing ... still here in this dimly lit cell in the maximum security prison in Cómbita, Boyacá.

From Mark Bowden, the preeminent chronicler of our military and special forces, comes The Finish, a gripping account of the hunt for Osama bin Laden. With access to key sources, Bowden takes us inside the rooms where decisions were made and on the ground where the action unfolded. After masterminding the attacks of September 11, 2001, Osama bin Laden managed to vanish. Over the next ten years, as Bowden shows, America found that its war with al Qaeda—a scattered group of individuals who were almost impossible to track—demanded an innovative approach. Step by step, Bowden describes the development of a new tactical strategy to fight this war—the fusion of intel from various agencies and on-the-ground special ops. After thousands of special forces missions in Iraq and Afghanistan, the right weapon to go after bin Laden had finally evolved. By Spring 2011, intelligence pointed to a compound in Abbottabad; it was estimated that there was a 50/50 chance that Osama was there. Bowden shows how three strategies were mooted: a drone strike, a precision bombing, or an assault by Navy SEALs. In the end, the President had to make the final decision. It was time for the finish. Discusses the cocaine trade, the Medellin Cartell, government corruption, and violence
in Columbia through an examination of the drug lord's life. This work charts the rise and spectacular fall of the Colombian drug lord, Pablo Escobar, richest and most powerful criminal in history. The book exposes the massive illegal operation by covert US Special Forces and intelligence services to hunt down and assassinate Escobar.

The explosive memoir of the two legendary drug enforcement agents responsible for taking down Pablo Escobar and the subject of the hit Netflix series ‘Narcos’. Javier Peña and Steve Murphy risked their lives hunting large and small drug traffickers in the decades they spent working for the US Drug Enforcement Administration. But their biggest challenge was the hunt for Pablo Escobar in Colombia. The partners, who began their careers as small-town cops, have been immortalised in Netflix’s ‘Narcos’, a fictionalised account of their hunt for Escobar. Now, for the first time, they tell the real story of how they brought down the world’s first narco-terrorist and ended the reign of terror of the world’s most wanted criminal. Manhunters takes you deep inside the inner workings of the Search Bloc, the joint Colombian-US task force that resulted in an intensive 18-month operation that tracked Escobar. Between July 1992 and December 1993, Peña and Murphy lived on the edge, setting up camp in Medellin at the Carlos Holguin Military Academy. There, they lived and worked with the Colombian authorities, hunting down a man thought to be untouchable. Their terrifying first-hand experience coupled with stories from the DEA’s de-classified files on the search for Escobar forms
the beating heart of Manhunters, a gripping account of how two determined and
courageous agents risked everything to capture the world's most wanted man. Praise
for Manhunters ‘A riveting account of two brave DEA Agents who put their lives, along
with their families’ lives, on the line to fight the war on drugs. A must read on the take
down of Pablo Escobar.’ Joe Pistone, a.k.a. Donnie Brasco ‘A fast-paced tale by two
agents who had the inside track on bringing down the most wanted man in recent US
history.’ Bruce Porter, New York Times bestselling author of Blow ‘Steve and Javier's
experience on the front lines of the war on drugs over the last thirty years made them
an invaluable source of information for a narrative of one of the most complex, poorly
reported, and misunderstood chapters in our recent past.’ Eric Newman, Executive
Producer, ‘Narcos’ ‘Manhunters grabs you from the first page and gives you a front-
row seat into the harrowing hunt for the brutal narco trafficker Pablo Escobar. Two
unlikely heroes recount their stories in a way that is both compelling and captivating.’
Congresswoman Mary Bono ‘A compelling read about the adventures of two true
American law enforcement heroes who ultimately took on the world’s first narco-
terrorist, the world’s most wanted criminal, the world’s largest cocaine baron, Pablo
Escobar, and won!’ Barbara Comstock, former congresswoman
Absolutely incredible, and brutally honest, this amazing story recounts the adventures
of a British SAS soldier turned mercenary. McAleese fought in some of the world's most
dangerous places, from Aden to Rhodesia (against the guerrillas of Zanla), and he
nearly lost his life trying to assassinate Colombian drug baron Pablo Escobar. Always in
search of the "intense high" of battle, for 25 years he saw almost constant
combat...putting him in a unique position to reveal the harsh realities of modern
warfare.

Pablo Escobar was the most notorious drug lord the world has ever seen. He became
one of the ten richest men on the planet and controlled 80 per cent of the global
cocaine trade before he was shot dead in 1993. This is the long-awaited autobiography
of his eldest son, Roberto Sendoya Escobar. His story opens with two helicopter
gunships, filled with heavily armed Colombian Special forces personnel led by an MI6
agent, flying into a small village on the outskirts of Bogota in Colombia. The secret
mission to recover a stolen cash hoard, culminates in a bloody shoot-out with a group
of young Pablo Escobar's violent gangsters. Several of the men escape, including the
young Escobar. As the dust settles in the house, only a little baby is left alive. His
distressing cries can be heard as his young mother lies dead beside him. That baby is
the author, Roberto Sendoya Escobar. In a bizarre twist of fate, the top MI6 agent who
led the mission, takes pity on the child and, eventually, ends up adopting him. Over the
years, during his rise to prominence as the most powerful drug lord the world has ever
known, Pablo Escobar tries, repeatedly, to kidnap his son. Flanked by his trusty
bodyguards, the child, unaware of his true identity, is allowed regular meetings with
Escobar and it becomes apparent that the British government is working covertly with
the gangster in an attempt to control the money laundering and drug trades. Life becomes so dangerous, however, that the author is packed off from the family mansion in Bogota to an English public school. Many years later in England, as Roberto's adopted father lies dying in hospital, he hands his son a coded piece of paper which, he says, reveals the secret hiding place of the 'Escobar Missing millions' the world has been searching for! The code is published in this book for the first time.

Killing Pablo is the story of the rise and spectacular fall of the Colombian drug lord, Pablo Escobar, richest and most powerful criminal in history. The book exposes the massive illegal operation by covert US Special Forces and intelligence services to hunt down and assassinate Escobar. In a story never told before, Mark Bowden has had exclusive access to highly classified intelligence documents. Killing Pablo combines the energy of a Tom Clancy techno-thriller and the detail of award-winning investigative journalism.

"Bowden has a way of making modern nonfiction read like the best of novels . . . [Killing Pablo] is absolutely riveting."--Denver Post

A tour de force of investigative journalism, Killing Pablo is the story of the violent rise and fall of Pablo Escobar, the head of the Colombian Medellin cocaine cartel. Escobar's criminal empire held a nation of thirty million hostage in a reign of terror that would end only with his death. In an intense, up-close account, award-winning journalist Mark Bowden exposes details never before revealed about the U.S.-led covert sixteen-month manhunt. With unprecedented access
to important players—including Colombian president Cesar Gaviria and the incorruptible head of the special police unit that pursued Escobar, Colonel Hugo Martinez—as well as top-secret documents and transcripts of Escobar's intercepted phone conversations, Bowden has produced a gripping narrative that is a stark portrayal of rough justice in the real world.

The mind-blowing true story of Pablo Escobar and the Medellin Cartel beyond their portrayal on Netflix. Colombian drug lord Pablo Escobar was a devoted family man and a psychopathic killer; a terrible enemy, yet a wonderful friend. While donating millions to the poor, he bombed and tortured his enemies - some had their eyeballs removed with hot spoons. Through ruthless cunning and America's insatiable appetite for cocaine, he became a multi-billionaire, who lived in a $100-million house with its own zoo. Pablo Escobar: Beyond Narcos demolishes the standard good versus evil telling of his story. The authorities were not hunting Pablo down to stop his cocaine business. They were taking over it. Shaun Attwood's War on Drugs trilogy - Pablo Escobar, American Made, and We Are Being Lied To - is a series of harrowing, action-packed and interlinked true stories that demonstrate the catastrophic consequences of drug prohibition."

BLOW is the unlikely story of George Jung's roller coaster ride from middle-class high school football hero to the heart of Pablo Escobar's Medellin cartel--the largest importer of the United States cocaine supply in the 1980s. Jung's early business of flying marijuana into the United States from the mountains of Mexico
took a dramatic turn when he met Carlos Lehder, a young Colombian car thief with connections to the then newly born cocaine operation in his native land. Together they created a new model for selling cocaine, turning a drug used primarily by the entertainment elite into a massive and unimaginably lucrative enterprise-- one whose earnings, if legal, would have ranked the cocaine business as the sixth largest private enterprise in the Fortune 500. The ride came to a screeching halt when DEA agents and Florida police busted Jung with three hundred kilos of coke, effectively unraveling his fortune. But George wasn't about to go down alone. He planned to bring down with him one of the biggest cartel figures ever caught. With a riveting insider account of the lurid world of international drug smuggling and a super-charged drama of one man's meteoric rise and desperate fall, Bruce Porter chronicles Jung's life using unprecedented eyewitness sources in this critically acclaimed true crime classic.

Pablo Escobar was one of the most terrifying criminal minds of the last century. In the decade before his death in 1993, he reigned as the head of a multinational cocaine industry and brought the Colombian state to its knees, killing thousands of politicians, media personalities, police, and unarmed citizens. In the 1980s, Virginia Vallejo was Colombia's most famous television celebrity: a top-rated anchorwoman and a twice-divorced socialite who had been courted by the
country's four wealthiest men. In 1982, she interviewed Pablo Escobar on her news program, and soon after, they began a discreet--albeit stormy--romantic relationship. During their five-year affair, Escobar would show Vallejo the vulnerability of presidents, senators, and military leaders seeking to profit from the drug trade. From Vallejo's privileged perspective and her ability to navigate the global corridors of wealth and high society, Escobar gained the insight to master his manipulation of Colombia's powerful elite and media. Loving Pablo, Hating Escobar chronicles the birth of Colombia's drug cartels: the kidnappers, the guerilla groups, and the paramilitary organizations. It is, above everything, a great love story--a deep and painful journey through a forbidden relationship--that gives us an intimate vision of the legendary drug baron who left his mark on Colombia, Latin America, the United States, and the world forever.

The story of 'the richest and most violent gangster in history' is told here in hundreds of photographs gathered by photographer James Mollison. Pablo Escobar, the head of the Medellin Cartel, was responsible for supplying 80 percent of the world's cocaine during the 1980s. In an attempt to avoid extradition to the USA, he declared war on the Colombian state and thousands died as a result. He only surrendered on condition that he could be housed in his own private jail. Escaping a year later, he was relentlessly pursued by the Colombian
police with the support of America's DEA until he was shot and killed in 1993. This visual biography includes 350 photographs and documents, most previously unpublished, including Escobar family photographs, police record photographs, snapshots by the DEA officer assigned to track Escobar down, and the archive of the colonel whose team eventually shot and killed him. It includes Mollison's own photographs addressing the Escobar legacy - photographs of his properties (including the remnants of his private zoo), houses he gave to the poor and his fleet of jets. The book's extensive and revealing text draws on over 100 new interviews with family members, Medellin Cartel associates, Colombian police and judges, and survivors of Escobar's killing sprees. The incredible bestselling true story of the rise and reign of the most wanted criminal in history, told by the one man who was with him every step of the way - his brother Roberto. Murderer, philanthropist, drug dealer, politician, devil, saint: many words have been used to describe Pablo Escobar, but one is irrefutable - legend. For the poor of Colombia, he was their Robin Hood, a man whose greatness lay not in his crimes, but in his charity; for the Colombian rich he was just a bloodthirsty gangster, a Bogie Man used to scare children in their beds; for the rest of the world flush with his imported cocaine, he was public enemy number one. During his reign as the world's most notorious outlaw, he ordered
the murder of thousands - at one point even bombing a passenger jet - smuggled drugs into the US in mini-submarines inspired by Bond films, was elected to parliament, staged midnight escapes through the jungle from whole army battalions, built his own prison, consorted with presidents, controlled an estimated fortune of over $20 billion, and for over 3 years outwitted the secret American forces sent to kill him. His ambition was as boundless as his violence, and neither was ever satisfied. This is the first major, and definitive, biography of this remarkable criminal life, told in jaw-dropping detail by the one man who, more than any other, can understand just how far he came and just how low he fell: his brother, Roberto Escobar. The NFL championship game that changed football forever: a New York Times–bestselling sports history classic by the author of Black Hawk Down. Yankee Stadium, December 28, 1958. What was about to go down on this Sunday evening in front of sixty-four thousand fans and forty-five million home viewers—the largest viewership ever assembled for a live televised event—was the first sudden death overtime in NFL history. This one battle between the league’s best offense, the Baltimore Colts, and the best defense, the New York Giants, would propel professional football from a moderately popular pastime into America’s favorite sport. On the field and roaming the sidelines were seventeen
future Hall of Famers, including Colts stars Johnny Unitas, Raymond Berry, and Gino Marchetti; and Giants greats Frank Gifford, Sam Huff; and assistant coaches Vince Lombardi and Tom Landry. But they were opposing teams in more ways than one. It was a contest between Baltimore blue-collars, many of whom worked off-season taking shifts at Bethlehem Steel, and the trendy, New York glamour boys of splashy magazine ads and TV commercials who mingled with politicians, Broadway stars, and even Ernest Hemingway. Mark Bowden “dives into the trenches of the 1958 NFL Championship game” for a riveting play-by-play account, the stories behind the key players, the effect it had on the league, the sport, and the country (Entertainment Weekly). “Bring[s] the contest so alive that you find yourself almost wondering . . . years later, how it will turn out in the end.” —The New York Times “The Best Game Ever is sure to become an instant Sacred Text.” —Jonathan Yardley, The Washington Post

Crimes that involve drugs are rampant nowadays all over the world, and hence the increasing drug dealers and pushers out there who seem to look at smuggling drugs as the only and easiest way to get all the richness and wealth in life. You will notice from here and everywhere that people are getting involved in abusing drugs which happen to be the reason for the increasing number of crimes committed by people involved in drugs. No matter how tight enforcement
law is and how much authorities regulate the use and dealing of drugs, there are still people who are able to smuggle drugs without being caught. Believe it or not, Pablo Escobar best defines how cruel and violent drugs or cocaine is, causing people to do everything, even killing, just to gain wealth! Usually, people become well-known like a celebrity because of the wealth, recognition of the great works or excellent leadership, but not in the case the cocaine king, Pablo Escobar. He has been famous more like a celebrity due to his numerous crimes, drug dealerships and strategic escapes. Who could ever imagine that a person who is considered the most high-profile criminal could carry out a number of escapes from the authorities and continue with his drug syndication? Pablo Escobar has indeed made a big name for being the most powerful and influential cocaine king! In United States, illegal drugs are usually associated with crimes in various ways. Most often, drugs dealers aid increase in crime activities by manufacturing, possessing or even distributing drugs classified as potential for abuse that include heroin, cocaine, heroin, amphetamine and morphine. Crimes such as drug trafficking as well as drug production are usually controlled by gangs, drug pushers or cartels, just like what Escobar and his organization do. A crime that is caused by using and trafficking drugs commonly includes sexual assaults or robbery. According to research, drug-related crime such as drug misuse is
related to different crimes associated with the feeling of invincibility, which can be pronounced as abuse. Moreover, problematic crimes that are associated with drugs usually include property crime, shoplifting, violence, drug dealing, aggression as well as driving while intoxicated. In relation to this, there is no doubt that Escobar's great leadership in cocaine and drug pushing has increased crimes committed in different cities and neighboring countries. He was able to encourage more people to work with him smuggling drugs.

Pablo Emilio Escobar Gaviria was born on December 1, 1949 in Rionegro, the Antioquia Department of Colombia. His father, Abel de Jesús Dari Escobar, was a farmer and his mother, Hermilda Gaviria, was a teacher in an elementary school in the area. He was the third of seven children of his parents and began his criminal activities as a teenager. Some reports claim that he would steal gravestones, sand them down, and then resell them to smugglers. However, his brother denies that he used to steal those gravestones. His friends and family report that Pablo would often tell them that he wanted to become the president of Colombia. Instead, he became the world's most notorious drug lord.

The New York Times–bestselling author of Black Hawk Down delivers a “suspenseful and inspiring” account of the Iranian hostage crisis of 1979 (The Wall Street Journal). On November 4, 1979, a group of radical Islamist students, inspired by the revolutionary Iranian leader Ayatollah Khomeini, stormed the U.S. embassy in Tehran. They took fifty-two Americans captive, and kept nearly all of them hostage for 444 days. In Guests of the Ayatollah, Mark Bowden tells this sweeping story through the eyes of the hostages, the soldiers in a new special forces unit sent to free them, their radical, naïve captors, and the diplomats working to end the crisis. Bowden takes us inside the hostages’ cells and inside the Oval Office for meetings with President Carter and his exhausted team. We travel to international capitals where shadowy figures held clandestine negotiations, and to the deserts of Iran, where a courageous, desperate attempt to rescue the hostages exploded into tragic
failure. Bowden dedicated five years to this research, including numerous trips to Iran and
countless interviews with those involved on both sides. Guests of the Ayatollah is a detailed,
brilliantly recreated, and suspenseful account of a crisis that gripped and ultimately changed
the world. “The passions of the moment still reverberate . . . you can feel them on every
page.” —Time “A complex story full of cruelty, heroism, foolishness and tragic
misunderstandings.” —Pittsburgh Post-Gazette “Essential reading . . . A.” —Entertainment

“An ambitious, remarkably frank” chronicle of the Philadelphia Eagles’ bid for the NFL
championship by the #1 New York Times–bestselling author (Kirkus Reviews). In 1992, the
Philadelphia Eagles—a team assembled in the image of their iconoclastic, controversial former
head coach, Buddy Ryan—were known for their ferocious defense led by Reggie White, Seth
Joyner, and Andre Waters, and for the otherworldly talents of quarterback Randall
Cunningham. Now was the time for the Eagles’ campaign for the championship. But as the season progressed, it disintegrated into an ugly flurry of greed, racism, violence, personal and professional feuds, one tragic death, and a very wild face-off in the stands between a player’s wife and mistress. By midseason, the sentiment of both fans and press was the same: “shut up and play.” Told through the personal stories of the teammates themselves, as well as the coaches, managers and owner, Bringing the Heat spares nothing—and no one—in “a phenomenal feat of reportage, perfect for football fans coast to coast” (H. G. Bissinger, author of Friday Night Lights). “Overflows with stories of pro football dreams, of bravery in the face of injury. Yet it also unflinchingly tells of the darker side of life in the NFL: uncontrollable egos, ruined families, marital infidelity.” —The New York Times Book Review “There are now four mandatory books on football: Dan Jenkins’s Semi-Tough; George Plimpton’s Paper Lion; H. G. Bissinger’s Friday Night Lights, and the hilarious, incorrigible son of them all, Mark Bowden’s Bringing the Heat.” —Michael Bamberger, Sports Illustrated

An electrifying account of the Cali Cartel beyond its portrayal on Netflix. From the ashes of Pablo Escobar's empire rose an even bigger and more malevolent cartel. A new breed of sophisticated mobsters became the kings of cocaine. Their leader was Gilberto Rodriguez Orejuela - known as the Chess Player due to his foresight and calculated cunning. Gilberto and his terrifying brother, Miguel, ran a multi-billion-dollar drug empire like a corporation. They employed a politically astute brand of thuggery and spent $10 million to put a president in power. Although the godfathers from Cali preferred bribery over violence, their many loyal torturers and hit men were never idle. Shaun Attwood's WAR ON DRUGS SERIES - PABLO ESCOBAR, AMERICAN MADE, WE ARE BEING LIED TO and THE CALI CARTEL - are
harrowing, action-packed and interlinked true stories that demonstrate the devastating consequences of drug prohibition.

"I have many scars. Some of them are physical, but many more are scars on my soul. A bomb sent to kill me while I was in a maximum security prison has made me blind, yet now I see the world more clearly than I have ever seen it before. I have lived an incredible adventure. I watched as my brother, Pablo Escobar, became the most successful criminal in history, but also a hero to many of the people of Colombia. My brother was loved and he was feared. Hundreds of thousands of people marched in his funeral procession, and certainly as many people celebrated his death." These are the words of Roberto Escobar—the top accountant for the notorious and deadly Medellín Cartel, and brother of Pablo Escobar, the most famous drug lord in history. At the height of his reign, Pablo's multibillion-dollar operation smuggled tons of cocaine each week into countries all over the world. Roberto and his ten accountants kept track of all the money. Only Pablo and Roberto knew where it was stashed—and what it bought. And the amounts of money were simply staggering. According to Roberto, it cost $2,500 every month just to purchase the rubber bands needed to wrap the stacks of cash. The biggest problem was finding a place to store it: from secret compartments in walls and beneath swimming pools to banks and warehouses everywhere. There was so much money that Roberto would sometimes write off ten percent as "spoilage," meaning either rats had chewed up the bills or dampness had ruined the cash. Roberto writes about the incredible violence of the cartel, but he also writes of the humanitarian side of his brother. Pablo built entire towns, gave away thousands of houses, paid people's medical expenses, and built schools and hospitals. Yet he was responsible for the horrible deaths of thousands of people. In short, this
is the story of a world of riches almost beyond mortal imagination, and in his own words, Roberto Escobar tells all: building a magnificent zoo at Pablo's opulent home, the brothers' many escapes into the jungles of Colombia, devising ingenious methods to smuggle tons of cocaine into the United States, bribing officials with literally millions of dollars—and building a personal army to protect the Escobar family against an array of enemies sworn to kill them. Few men in history have been more beloved—or despised—than Pablo Escobar. Now, for the first time, his story is told by the man who knew him best: his brother, Roberto.

The first battle book from Mark Bowden since his #1 New York Times bestseller Black Hawk Down, Hue 1968 is the story of the centerpiece of the Tet Offensive and a turning point in the American War in Vietnam. In the early hours of January 31, 1968, the North Vietnamese launched over one hundred attacks across South Vietnam in what would become known as the Tet Offensive. The lynchpin of Tet was the capture of Hue, Vietnam’s intellectual and cultural capital, by 10,000 National Liberation Front troops who descended from hidden camps and surged across the city of 140,000. Within hours the entire city was in their hands save for two small military outposts. American commanders refused to believe the size and scope of the Front’s presence, ordering small companies of marines against thousands of entrenched enemy troops. After several futile and deadly days, Lieutenant Colonel Ernie Cheatham would finally come up with a strategy to retake the city, block by block and building by building, in some of the most intense urban combat since World War II. With unprecedented access to war
archives in the U.S. and Vietnam and interviews with participants from both sides, Bowden narrates each stage of this crucial battle through multiple viewpoints. Played out over 24 days and ultimately costing 10,000 lives, the Battle of Hue was by far the bloodiest of the entire war. When it ended, the American debate was never again about winning, only about how to leave. Hue 1968 is a gripping and moving account of this pivotal moment.

Hollywood Godfather is Gianni Russo's over-the-top memoir of a real-life mobster-turned-actor who helped make The Godfather a reality, and his story of life on the edge between danger and glamour. Gianni Russo was a handsome 25-year-old mobster with no acting experience when he walked onto the set of The Godfather and entered Hollywood history. He played Carlo Rizzi, the husband of Connie Corleone, who set her brother Sonny—played by James Caan—up for a hit. Russo didn't have to act—he knew the mob inside and out: from his childhood in Little Italy, where Mafia legend Frank Costello took him under his wing, to acting as a messenger for New Orleans mob boss Carlos Marcello during the Kennedy assassination, to having to go on the lam after shooting and killing a member of the Colombian drug cartel in his Vegas club. Along the way, Russo befriended Frank Sinatra, who became his son's godfather, and Marlon Brando, who mentored his career as an actor after trying to get Francis Ford Coppola to fire him from The Godfather. Russo had passionate affairs with Marilyn Monroe, Liza Minelli, and scores of other celebrities. He went on to become a producer and starred in The Godfather: Parts I and II, Seabiscuit, Any Given Sunday and Rush Hour 2, among many other films. Hollywood Godfather is a no-holds-barred account of a life filled with violence, glamour, sex—and fun.

Colombian drug lord Pablo Escobar's ambition and ruthlessness made him one of the wealthiest, most powerful and most violent criminals of all time. Pablo Escobar, born on December 1, 1949, in Antioquia, Colombia, entered the cocaine trade in the early 1970s. He collaborated with other criminals to form the Medellin Cartel. He was killed in 1993. Referred to by his brother, Roberto, as a modern day Robin Hood, Escobar often paid for low-cost housing and other community necessities for the poor people of his neighbourhood. It was apparently a meticulously built image that Escobar promoted in his own newspaper and which ensured his protection by many Medellin citizens. Escobar built his drug trafficking industry to such an extent that he eventually controlled over 80% of the cocaine sent to America. With his own factories and an entire fleet of aeroplanes and ships, including two radio-controlled submarines, it has been estimated that Escobar smuggled 70 to 80 tonnes of cocaine from Colombia to America per month, and as much as 11 tonnes in each flight. In order to launder the drug money, the Medellin Cartel controlled a large amount of crooked white-collar workers, such as bankers, lawyers and extended family. In 1989 Escobar was listed as the seventh Richest Man in the World by Forbes magazine, with a fortune rumoured to be around $24 billion. He certainly loved to display his wealth and lived an extravagant lifestyle. He invested
much of his money in real estate, splashing out on luxurious homes, many with private helicopter ports. He owned numerous cars, helicopters and aeroplanes, a private zoo for which he imported exotic wild animals, and a massive garden filled with hundreds of fruit trees. He also owned apartments, banks and large tracts of land. For his own protection, Escobar bought the support of other criminals, who also acted as his guerrilla army, carrying out any violence he demanded. "Barry Seal flew cocaine and weapons worth billions of dollars into and out of America in the 1980s. After he became a government informant, Pablo Escobar's Medellin Cartel offered a million for him alive and half a million dead. But his real trouble began after he threatened to expose the dirty dealings of George HW Bush. American Made rips the roof off Bush and Clinton's complicity in cocaine trafficking in Mena, Arkansas."--Back cover.

Pablo Escobar was a mama's boy who cherished his family and sang in the shower, yet he bombed a passenger plane and formed a death squad that used genital electrocution. Most Escobar biographies only provide a few pieces of the puzzle, but this action-packed 1000-page book reveals everything about the king of cocaine. Mostly translated from Spanish, Part 1 contains stories untold in the English-speaking world, including: The tragic death of his youngest brother Fernando. The fate of his pregnant mistress. The shocking details of his affair with a TV celebrity. The presidential candidate who encouraged him to eliminate their rivals. The true story of a cold case, a compulsive liar, and five determined detectives, from the #1 New York Times–bestselling author and “master journalist” (The Wall Street Journal). On March 29, 1975, sisters Katherine and Sheila Lyons, ages ten and twelve, vanished from a
shopping mall in suburban Washington, DC. As shock spread, then grief, a massive police effort found nothing. The investigation was shelved, and the mystery endured. Then, in 2013, a cold case squad detective found something he and a generation of detectives had missed. It pointed them toward a man named Lloyd Welch, then serving time for child molestation in Delaware. The acclaimed author of Black Hawk Down and Hue 1968 had been a cub reporter for a Baltimore newspaper at the time of the original disappearance, and covered the frantic first weeks of the story. In The Last Stone, he returns to write its ending. Over months of intense questioning and extensive investigation of Welch’s sprawling, sinister Appalachian clan, five skilled detectives learned to sift truth from determined lies. How do you get a compulsive liar with every reason in the world to lie to tell the truth? The Last Stone recounts a masterpiece of criminal interrogation, and delivers a chilling and unprecedented look inside a disturbing criminal mind. “One of our best writers of muscular nonfiction.” —The Denver Post

“Deeply unsettling . . . Bowden displays his tenacity as a reporter in his meticulous documentation of the case. But in the story of an unimaginably horrific crime, it’s the detectives’ unwavering determination to bring Welch to justice that offers a glimmer of hope on a long, dark journey.” —Time

Killing Pablo is the story of the fifteen-month manhunt for Colombian cocaine cartel kingpin Pablo Escobar, whose escape from his lavish, mansionlike jail drove a nation to the brink of chaos. In a gripping, up-close account, acclaimed journalist Mark Bowden exposes the never-before-revealed details of how U.S. military and intelligence operatives covertly led the mission to find and kill the world's most dangerous outlaw. Drawing on unprecedented access to the soldiers, field agents, and officials involved in the chase, as well as hundreds of pages of top-
secret documents and transcripts of Escobar's intercepted phone conversations, Bowden creates a narrative that reads as if it were torn from the pages of a Tom Clancy technothriller. Killing Pablo also tells the story of Escobar's rise, how he built a criminal organization that would hold an entire nation hostage -- and the stories of the intrepid men who would ultimately bring him down. There is Steve Jacoby, the leader of Centra Spike, the ultrasecret U.S. special forces team that would use cutting-edge surveillance technology to find one man among a nation of 37 million. There is Morris Busby, U.S. ambassador to Colombia, who would convince the Bush administration to approve the deployment of the shadowy Delta Force operators who would be the key to the drug lord's demise. And there is Escobar's archenemy, Col. Hugo Martinez, the leader of Colombia's federal police, who would turn down a $6 million bribe, survive countless attempts on his life, and endure a humiliating exile while waging his battle against the drug lord's criminal empire. It was Martinez's son, raised in the shadow of constant threat from Escobar's followers, who would ultimately track the fugitive to a Bogota rooftop on the fateful day in 1993 when the outlaw would finally meet his end. Action-packed and unputdownable, Killing Pablo is a tour de force of narrative journalism and a stark portrayal of rough justice in the real world.
